What is the "HOME" of Lina Lina ??

Lina Lina, aka the ukulele mermaid, released her fifth album "Home" featuring 11 songs. The album is the first release from her own label. The album's genuine "home-made" feelings make the album something like her "home ground".

The selection of the eleven songs includes "Mama's Song", a song inspired by warm messages "NYANKO NO UTA - Cats Song-", featuring real cats' voices, was recorded with pug27, a brass big band from Osaka. The collaboration gives depth and charm to the piece.

The album features songs with English lyrics such as "New York", a song she wrote while she spent some time in New York, and "Go" by Smashing Pumpkins, which is highly acclaimed among musicians overseas. Covers such as Djavan's "Flor de Lis" and the standard "Dream a Little Dream of Me" will take the listener to a distant paradise.

"RINGO NO HANA GA SAKU KORO NIWA -By The Time The Apple Trees Bloom", a song reminds the listener of Japan's TOHOKU area scenery after the earthquake. A cover of Yuki Saito's "KAZOKU NO SHOKUTAKU" visualizes HOME where the singer belongs through the melody played by her ukulele and her soft voice.

Responding to the requests, she re-recorded a piece she released in 2003, a "KONO KAZE NO YOUNI - Like This Wind-", for this album. All eleven songs enfold the listener with Lina Lina's big love and gentle sound, making you realize Lina Lina's music, people and sound surrounding her, and each and every listener are together in one big "HOME" created by Lina Lina.

Lina Lina's "HOME" is the sound that makes you want to get back to...

HOME

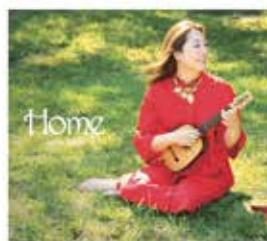

Hi, how are you been? I am writing this letter to you as I ready my new album "HOME" for release. It's been a couple of years since I started recording and now it's finally finished.

A lot of things happened in last few years, but I always thought what really mattered, was family and the place you belong to, since so I decided to name the upcoming album "HOME". Thanks to amazing people, the album takes a genuine "HOME" feel and I can call it my "HOME" album.

I am an artist but I also teach Ukulele etc. Teaching Ukulele makes me happy, but I love to see many people playing Ukulele with their own musical instruments. So I put Ukulele covers only to my original songs in the Album. I would be pleased if you could sing and play songs in your own style.

Every single person involved in making this album and every single listener of my music are my "family". I would be happy if my music is a place where you always want to come HOME to.
